## Introduction

**Congratulations on purchasing your new Spectroniq Home Theater System!**

Your new home theater system offers a wide range of features. In addition to playing video, it can play music and photo CDs so you can listen to music or browse photo albums using your television set.

With composite, S-Video, and component video outputs, you can connect the player to any display. And progressive scan video output capability provides the highest video quality available.

The included 300 watt, 5.1 channel surround sound speaker system gives you realistic 3D audio for the most immersive movie experience.
